

# SignGold

22 KARAT GOLD VINYL

Cutting, weeding and applying SignGold-22K is virtually the same as working with other high performance vinyls. SignGold's durable Tedlar (PVF) film, with its guaranteed **12 year outdoor life**, is UV, weather, graffiti, solvent, stain and saltwater resistant... and it will not fade or delaminate when properly installed.

No additional labor is involved. It is NOT more difficult to cut, weed or apply. In fact, the only noticeable differences are the additional **value** of genuine gold, additional customer satisfaction, and the additional **profit in YOUR pocket**.
